

Christmas Ball Opens Holidays

• WHAT MORE COULD YOU ASK FOR •

IT SEEMS THAT Vance McCarty would do anything to make the Christmas formal a success. Caught in the patio of the Student Union, the other day, he is offering Don Vaughn the key to his car and his choice of the three co-eds if only Vaughn will buy a ticket to the dance this Friday evening. The winsome lasses are, left to right, Shirley Mealey, Sue Anne Tone, and Phyllis Boden.—Photo by Lee Hansen.

VOLUME XXIV SANTA ANA, CALIFORNIA, DECEMBER 16, 1947

NO. 10

New Registration Procedure Aims For Better Counseling Of Students

Registration for the second semester began this week, as students in gym classes made appointments for counseling with the members of the various departments, while those not having gym made their appointments at the telephone desk in Building K.

AWS To Play Santa By Sponsoring Drive For Christmas Gifts

Seven very needy Orange County families will have a merrier Christmas because of SAC's Associated Women Students.

Through the Orange county welfare department, the AWS have adopted these seven needy and deserving families who might not have a very pleasant Christmas were it not for the generosity of more fortunate people.

Yesterday the AWS began a week-long campaign to help these families, one of which is a widowed mother and her seven children whose ages range from 1 to 10 years. The other six families are similar in size.

Large boxes have been placed in the lounges in C-4, E-4, and in K-7, for the purpose of receiving canned goods, potatoes, and fruits that are not immediately perishable. Students and faculty who can and would like to help these needy families are urged to contribute to these boxes.

In K-7 and in the Student Union by the cash register there is a small box for small financial contributions—five, ten and twenty-five—so that the children may have the pleasure and delight of receiving from Santa Claus some small toy such as a little car, a color book, a candy cane, or perhaps a bright hair ribbon.

This drive will last until next Thursday afternoon, Dec. 18. Bonnie Eggert is the project chairman.

All programs are to be made and approved by counselors and filed with the registrar's office before the deadline, January 23. Classes begin on January 26.

Gives More Time

The early registration is intended to relieve the strain imposed on both students and counselors by mass registration in the first few weeks of the term. It is expected that the early start will give students ample time to think over their courses and arrange a satisfactory schedule before the new semester begins.

Students will report to the library between 8 and 9 a. m. on the first day of the new semester, January 26, to pick up their class tickets, without which there will be no admittance to class.

No Changes First Week

No changes in program will be allowed during the first week of the second semester. All changes should be made in the first week of February, and all changes should be made at one time. No classes may be added after that week.

Any students who are unsure of their major or who wish to make a change in it should see either Maurice Gerard or Royal Marten. All students are urged to keep their appointments, or, if this proves impossible for any reason, to cancel them and make new ones. All those failing to do this will be forced to wait until the final week of scheduling to sign up.

Tattlers Hold Initiation

Members of the Tavern Tattlers, recently accepted into the club will be initiated at the regular meeting of the group on Wednesday, Dec. 17, in the Student Union.

• DISCUSSING PLANS FOR OPEN HOUSE •

MEMBERS OF THE Open House committee going over final plans for the public event which takes place Thursday evening are, left to right, Harry des Granges, shop instructor, Mrs. Etta Cottrell of the science department, and Doris Hibbard of the student decoration committee.

Santa Ana Citizens Are Invited To Attend College 'Open House'

Seeking to acquaint the citizens with the work being carried on at Santa Ana college, faculty members will hold open house on the campus for the townspeople on Thursday evening, Dec. 18, from 7 to 9.

Under the direction of Mrs. Gail Smith, English instructor, and general chairman of the affair, the Open House will feature student work and equipment in the science departments, the college shops, and the college library. Ready to answer questions of the visitors in their respective divisions will be Mrs. Etta Cottrell, chemistry instructor; Harry des Granges, machine shop instructor; Miss Frances W. Egge, art instructor; and Miss Lillian Dickson, head librarian.

The people of the community will be served refreshments in the Student Union from 7 to 9, which will be decorated in a Christmas theme for the occasion by Miss Isabelle Rellstab and the WAA.

Bachelors Sponsor Gala Event At Newport Harbor Yacht Club

Newport Harbor Yacht Club will be the scene of the Christmas dance, given by the Bachelors on Dec. 19. Vance McCarty, chairman of the dance committee, has announced that there will be dancing to the music of Bob Froeschle and his band from nine to twelve.

Tickets may be purchased from the Bachelor members, or next week in the booth in front of the Student Union. They are on sale at \$1.25 per couple.

Sponsored last year by the Bachelors, the Christmas dance proved to be a tremendous success, and this year, with the Yacht Club decorated in a bright Christmas motif, a gala evening for all is anticipated.

Men are requested to wear dark suits, while the women are to come formal. Soft drinks and refreshments will be served on a porch overlooking the water.

Decorations are under the direction of Neil Honer, while Howard Desmond is head of the bid committee. All decorations will highlight bright Christmas colors, while a snow scene and Christmas tree have been planned for one corner of the floor.

Students are eligible for admission who have completed a minimum of 60 units of acceptable college work and have maintained at least a C average in all college work undertaken.

Classes are offered in department of art, business education, engineering, English, French, German, Italian, Spanish, journalism, law, mathematics, music, philosophy, physical education, psychology, secretarial, speech, astronomy, botany, chemistry, geography, geology, nature study, paleontology, physics, economics, history, and political science.

• LATE NEWS •

TAVERN POST CONTEST

Contributions for Tavern Post, literary publication of the Tavern Tattlers, are now being accepted for possible printing, Paul Hager, editor, stated this week.

Manuscripts should be typewritten and turned in to any member of the staff or to Miss Lillian Dickson at the library. Fiction, articles, or poetry are all acceptable.

Other members of the staff are: Karl Kasky, managing editor; Lucille Innerst, Megan Kipf, and Dorothy Carden, associate editors; and Dorothy Gommel, art editor.

YWCA CONVENTION

Conventions of the YWCA to be held during the Christmas vacation will be well represented by delegates from the Campus YWCA.

Helen Lockett is making plans to attend the Pacific Southwest Conference of the Y at Asilomar which will be held Dec. 27 to Jan. 2, while Lucille Innerst and Betti Corcoran will travel to the University of Kansas at Lawrence to attend the National Conference from Dec. 27 to Jan. 1.

JOINALISM FRATERNITY

Joining with other Southern California colleges, members of Beta Phi Gamma, honorary journalism fraternity, journeyed to Pasadena city college Saturday to attend the national convention of the society.

Dick Reish, president, was accompanied by Bob Werley and Sam Strange, chapter members; Dolly Meyer, pledge; Marilyn Perrin, and Ray Wright, alumni; and Carl Venstrom, adviser.

FROLIC PARADE

College service clubs are invited to enter floats in the New Year's Eve Santa Annual Frolic parade, it was announced by Vic Alleman, general chairman for the Frolic.

A float for each separate club or one float entered by all clubs combined will be accepted, he added, although the approximate deadline has been set as December 15. All lights and wiring will be furnished free by the Junior Chamber of Commerce, it was learned, as well as serpentine, confetti, and papier-mache costume heads.

Ads on floats will be limited to four feet long by 14 inches high. No horses will be allowed in the parade. Any floats entered by service clubs will be judged in a separate class, with first and second prizes awarded.

Christmas Jobs Offered Dons Seeking Work

As the Christmas season rapidly approaches, are you one of the bewildered few without a job for the holidays, and also minus a cabin at Big Bear? Provided you can't get the latter, it might be handy to have the former! Anyway, here are some hot tips on jobs—but remember, it's only advisable to apply for these during the Yuletide season while everyone is still in a good mood!

Beachcombing being poor these days, the next most popular job on the list is a highly profitable one known as "shoplifting." A prerequisite of this occupation, however, is light fingers. "Do your Christmas shoplifting early," has become a national motto.

With competition so keen in this line, another field presents itself to the job-hunter—that of store detective. Brawn, brain, and a squirt gun are all that are needed for this job, although a large gunny sack is also helpful, to carry home all the things you've retrieved from the shoplifters.

The football-minded will find an outlet for their energies in running interference for timid shoppers during the Christmas rush. Those good at thinking up what to give Aunt Hattie this year can always be sure of a job from the worriers who spend frantic hours thinking up original gifts. In the more specialized field are the professional goose-carvers, eggnog mixers, and the experts who are hired to poke holes in chocolates to find out which ones are the creams.

Armed with all these ideas, your worries about finding a job this Christmas season are over. (Or are they?)

Modern Santa Claus Arrives By Airplane

Jolly old Santa Claus used to arrive by reindeer sled, amid tinkling bells in days of yore, but now it's different.

Beneath the whirring blades of a silver helicopter, Saint Nick, with his familiar garments of red and white, descends a rope ladder.

Mr. Claus, in years gone by, received letters from little boys asking for marbles, knives, ice skates, and warm sweaters. Little girls requested dolls, handkerchiefs, dresses with polka-dots, and baby buggies. Now, what do girls ask for: permanent wave sets, lipstick, makeup assortments, bathing suits, jewelry, watches, and convertibles.

The modern little boys plead for Buck Rogers guns, tanks, Captain Midnight super jet planes, hot rod racing cars, electric trains, erector sets, printing presses, typewriters, and bicycles.

Yes, Santa is a very busy man. Industry has commercialized on Christmas and the true meaning has been lost in the din of confusion at the dime store. Christmas is the festival of the Christian church, observed annually on December 25, in celebration of the birth of Christ. It is believed Christmas was first celebrated in the third century. It was as late as 1846 that Christmas cards were introduced.

The modern Santa Claus in Newark, N. J. must pass a rigid physical examination before he can serve in a department store. It is also against the law in Newark to kiss children while acting as Santa.

"We don't have a chance when the faculty is invited!"

Students Hoping For

Sandi Davidson—Mink coat.
Jerry Gooch—'47 Lincoln.
Marge Gibbs—'48 Cadillac convertible
Julie Britton—"something out of this world"
Marvin Fluegge—12 gauge shotgun
Catherine Griset—Fluegge's '41 Chevy
Roy Ward—'48 Buick
Bud Halderman—good grades
Chuck Patterson—"some of the good-looking women around the campus
Matt Vasquez—'48 Buick
Ned Goudy—money to build a "rod"
Leo Hershman—'47 Cadillac

College Types

By Don Mannison

Neat, sweet, and petite, is the manner in which Mary would be described if she were seen around the campus. Chances are that her face will never be seen on the cover of any magazine; probably because she never has and will never be a cover-girl.

Mary is the little girl that always seems to be around when a fellas needs some encouragement or moral support. When asked to give a more or less accurate description of Mary, an enterprising young male would undoubtedly reply, "Oh, she's awfully cute, a lot of fun, and her clothes are always right in style." Mary may never be seen with her slip showing or her lipstick all over her face.

A terrific dancing partner, but she never fouls her partner by pulling every complex and intricate step that has ever been written. Mary certainly isn't the type that walks around with vacant, glassy stare in her eyes, and looks dumbfounded when you use anything but monosyllabic words, but neither does she flaunt her literary alertness and philosophical meanderings in your face every chance she gets.

There she is, and don't feel bashful about asking her for a date, because she really is terrific. "No, she isn't Sadie Glutz!"

Yule Inspires Kringle Jingle

(Tustin Broadcaster)

Twas a night before Christmas
And all through the school
There prevailed a spirit
Of unrest and unrule.

Each student was perched
On the edge of his seat
And the whisper of voices
And the tapping of feet.

Were heard through the rooms
As they fretfully waited
For that sign of dismissal
That seemed to be late.

When up from the rooms
There arose such a clatter
That I sprang from my seat
To see what was the matter.

And there in the halls
I beheld such a crowd
Of students all shouting
In tones shrill and loud.

And they whistled and shoved
And danced through the hall
"Hi, Jim," "Hello, Kate,"
"See you soon," "So long, Paul."

To the waiting busses
To the cars in the stall,
They ran away, raced away,
Dashed away, all.

And I heard them exclaim
As they all went on their ways
"Hurrah! No more school
For sixteen whole days!"

Official publication of the Associated Students of Santa Ana college, Santa Ana, California. Published bi-weekly during the college year while in session, except the weeks of quarterly and semester examinations, and issued on the campus consolidation ticket, the price of which includes \$50 for subscription to the paper.

Introducing

Heading the many activities of the College YMCA this semester is Bob Hockaday, tall reserved graduate of Santa Ana high school class of '45. And just to break up the monotony of immigrant interviews, he is a native of Santa Ana.

After spending the last two and a half years at Cal Tech, Hockaday has returned here to fill in the requirements for his selected work of industrial engineering. At the present time he is completing the background material for his major.

Final touches of his formal education will be continued at UCLA which he intends to enter in February. There his main interest

BOB HOCKADAY

will be corporation finance and production control, the business side of his intended vocation, factory manager.

At the various assemblies and college activities in which the band takes part, Hockaday can be found beneath the large instrument we call the bass horn. Another group on his musical list is the Orange county choral group which entertains at various clubs and functions throughout the country.

In his leisure from school work he puts in time at the firm of Hockaday and Phillips selling auto and industrial parts. And he also adds a word on the work of the YMCA, which at the present time centers on the William Standage Fund.

Events Abroad

Long Beach CC

Annual crop of beards of all sizes, shapes and types has appeared in the last few weeks in preparation for the yearly contest which will be held in conjunction with Fylke day festivities.

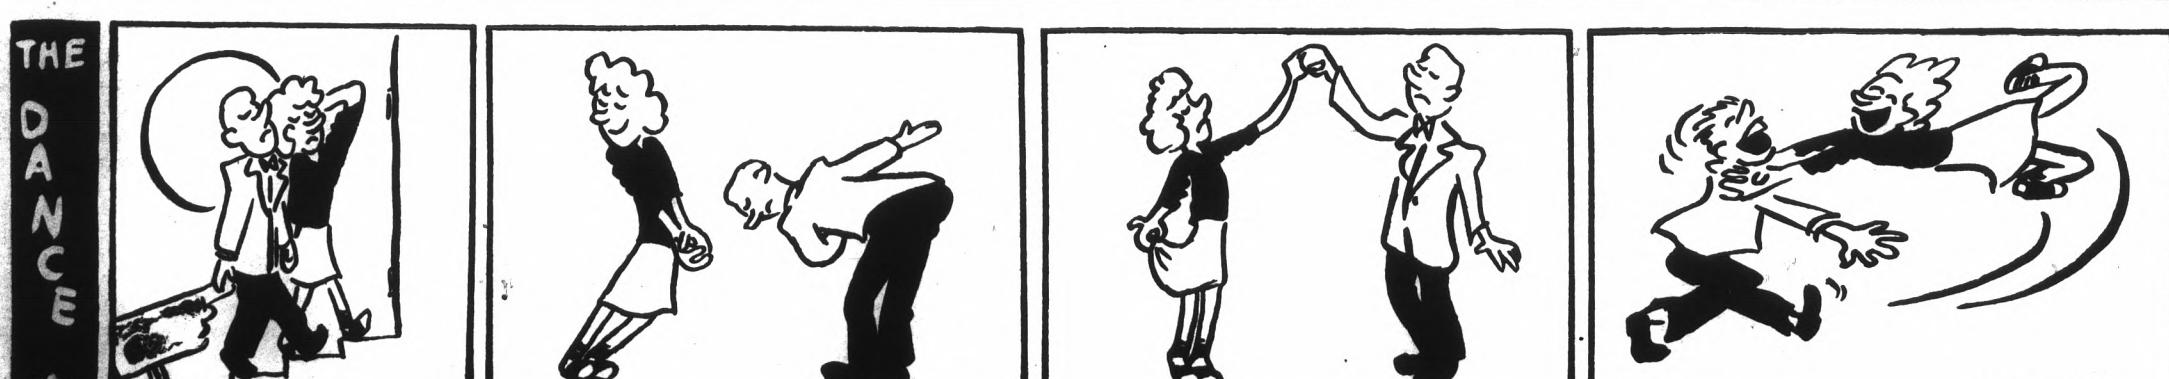

Stephens College

Plans were completed recently for the supplying of a rest center for use of mothers and children in the railroad station in Frankfurt, Germany.

show last week. The films came into the limelight when it was claimed that they showed evidence of holding by SC players in the last seconds of the game.

UCLA

Films of the hotly-debated USC-UCLA game were shown to students at a Christmas vaudeville

SANTA ANA COLLEGE
Santa Ana, California

REGISTRATION INFORMATION

Second Semester 1947-1948

Registration. Registration will be by appointment with a counselor between December 9 and January 23. Students currently enrolled who have not made appointments through Physical Education classes may do so at the Information Desk. Entering students may make appointments at the Information Desk in Building K.

Maximum Units. Unless the student is confident of a "B" average he should limit his program to 16 1/2 units, the normal program. This includes any courses to be added in the Evening Division.

Physical Education. Every student is required by State law to register for a physical education activity course unless over 25 years of age. Those over 25 years of age will mark Physical Education "Not required" on the registration forms. Those with physician's excuses on file will be released by the Registrar.

English. Students who have qualified in the English Placement Test may enroll in English 1A, English 11, English 21, or Public Speaking 1A. Those who have not qualified must enroll in English 50.

Repeated Courses. No course previously taken may be repeated for credit. Repeating to raise grade points must be arranged by petitioning the Registrar.

Class Ticket Numbers. Every class is indicated by a class ticket number in the first column on the schedule. This number identifies the class ticket for the course and must be copied accurately on all registration material.

Course of Study. List courses in numerical order on the registration envelope. Use ink. Copy course names and numbers carefully, using the abbreviations shown on the time table, omitting the information in parentheses. Write the course name and number in the hour spaces on the schedule on the right portion of the envelope showing, both lecture and laboratory hours. Check hours carefully to avoid conflicts.

Prerequisites and Restricted Courses. Students must check the list of prerequisite courses before registering for a course. Credit may not be granted if prerequisites have not been met. English 36, History 22, Library Science 12, Philosophy 6, Political Science 21, and Surveying are not open to Freshmen.

Counselor's Signature. When the course of study is completed, the registration envelope must be signed by the counselor. The counselor will file the completed envelopes with the Registrar.

Associated Student Body Tickets. Bring your Student Body Ticket on the first day of the term. Second Semester tickets can be purchased at this time. Veterans may secure an authorization to purchase a ticket from Mr. Crain in K10.

Admission to Classes. Class tickets are to be secured in the Library, January 26, between 8 and 9 a. m. No one will be admitted to class without a ticket.

New Students. New students should:

- 1) file with the Registrar an application for admission and transcript of high school and college courses taken previously,
- 2) take the college aptitude tests,
- 3) make an appointment with a counselor before January 23, and
- 4) present an identification picture (1" x 1")

Late Registration. Students who have not completed study lists by January 23 may register by appointment with the Head Counselor or Dean of Men between January 26 and January 30.

Change of Program. If absolutely necessary programs may be changed with the signed approval of the counselor, between February 2 and February 6. No new courses may be added after February 6.

Final Study Lists. Study lists in final form must be filed on February 9 or February 10.

Parking Regulations

The residents near the Santa Ana College are strongly protesting against the parking of College students on the streets adjacent to the campus. The following parking procedure must be observed if the good will of these people is to be maintained. The cooperation of all students in observing this procedure is urgently requested.

1. The parking area on the southwest corner of Fifteenth and Bristol Streets is to be entered at the northeast corner. Exit at the southeast corner on to Bristol Street.
2. In the parking area south of Buildings A, B, C, D, E and F, park diagonally on both sides. **The traffic in this area is one-way.**
3. In the parking area south of Buildings G and J, park

diagonally on the north side and parallel on the south side.

4. In the parking area west of Building K, park as directed by signs. The exit from this area is west on Fifteenth Street. **Do not exit east on Fifteenth Street.**
5. Parking is permissible on the west side of Bristol Street between Martha Lane and Seventeenth Street, adjacent to the College campus. **Do not park adjacent to private property at any time, either on Bristol Street, Martha Lane or Pacific Avenue.**
6. A limited amount of parking is available along Fifteenth Street between the trees. Park off the pavement.

NEWS GATHERING OFFERS PRACTICAL EXPERIENCE SUPPLEMENTING THEORETICAL CLASS ASSIGNMENT

(Ed. Note—This is the sixth of a series of articles, written by Beth Kimball, El Don reporter, to acquaint students with the various departments of the college.)

"From news gathering to mailing newspapers" briefly outline the activities of the student of journalism. What he learns in his classes, he is soon applying to his work on El Don.

Publication of a newspaper presents an opportunity for practical experience to the men and women in the journalism classes which other courses can not offer in a corresponding degree.

Deadline Gives Force

News reporting, rewriting, copywriting, copyreading, makeup, headlines and editorial work are all available to the aspiring newspapermen. The "deadline," automaton of the school newspaper as well as the commercial paper, gives force to the training.

Learning to work with associates is another achievement which must be attained by the student. A visitor to the El Don office will notice the esprit of comradery which prevails there. This characteristic is the invisible assistant of the journalism instructor, according to Carl Venstrom, who is acting in that capacity. It is the student who urges the student journalist to get his work done on time and to the best of his ability so his associates will not resent his laxness. Two qualities, dependability and accuracy—the primary requisites of a successful reporter and a definite aid to success in any line of work, are developed by this training.

Must Write Briefly

It is well known that the journalist must learn to write briefly, in a manner calculated to arouse interest. This ability, says Venstrom, is an asset to anyone who intends to write as a part of his work, whether it is business letters or novels. Therefore, he contends, many students who have not considered journalistic training would do well to include at least a semester in their curricula.

BULLETINS

Joseph Cullen was elected president of the Engineers' club last week in an organizational meeting in the Student Union. The club advisers are Harry des Granges, C. Norman Hicks, and R. W. D. Cornett.

Other officers elected were Don Wilson, vice-president; Joseph Honer, secretary; Stanley Magill, treasurer; and Irving Davis, sergeant-at-arms.

Field trips to manufacturing plants and engineering establishments in Southern California are being planned by the group.

All engineering and mechanics majors are urged to attend the next meeting Dec. 17.

Tom Franklin will preside and four notable guests from the Toastmasters International will be present at the last leadership meeting being held Tuesday at 3 o'clock in building L-2.

Founder of the Toastmasters International Ralph Smedley, with Ted Blanding, Wilbur Smith, and Ernest Wooster are the guests.

Latest project of the shop class, under the supervision of Harry des Granges, engine shop instructor, is the construction of a pair of air compressor units. One of the units, now nearing completion, is being assembled for Wilard Junior high school. The other, still in an early stage of assembly, will be used by the art class of

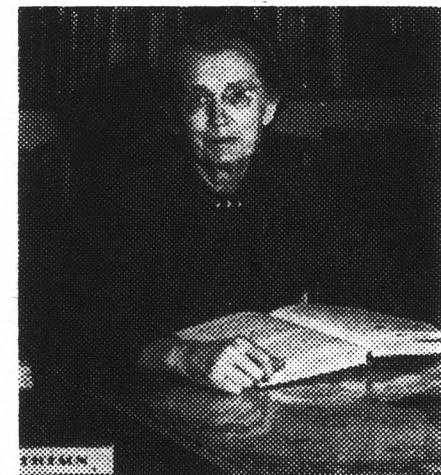

Library Tea Hears Review

Attended by members of the faculty, students, and other librarians, a Christmas Book Tea was given last Wednesday in the college library.

Feature of the event was the reviewing of several books by Mrs. John Tessman, former history instructor at Santa Ana college. Hostesses were Miss Lillian Dickson and Mrs. Florence Finley.

Christmas decorations were in evidence, and seasonal music was played while tea and fruit cake were being served. Newly acquired books were also on display for inspection by those present.

● PRESENTS TEA ●

MISS LILLIAN DICKSON, college librarian, presented a Christmas Book Tea in the college library.

Archery Aspirants Begin Practicing

If you have had occasion to be in the vicinity of building L during the early part of the afternoon in the past two weeks you probably would have encountered four or five archers sharpening their eyes for the advent of archery classes.

Under the physical education department, archery is to be inaugurated at Santa Ana college for the first time. This sport is likely to be co-educational. At the present time only the lack of equipment, mainly target brackets and quivers, is delaying the formation of the classes.

Already at practice are Nick Hardeman and Gale Hartman, who will assist as instructors, Don Archer, Bob Manning, and football coach Bill Cook who might easily be mistaken for an SAC student when he's sighting with his bow. These aspirants have been using a stick at fifty yards for a target.

Santa Ana college. Des Granges has also secured a number of posters illustrating the various gas and Diesel engines, and parts thereof, with which the class works. They are posted on the walls of the machine shop where they can be referred to whenever necessary.

Electric Power Decides Future

Feb. 1 Chosen By Contractor For New Campus

Occupancy of the first unit of the new college campus hinges on receipt of a giant transformer to supply electrical power for the entire college. Fred McCandless of the Allison Honer company stated this week that the new classrooms will definitely be ready for occupancy on February 1, if the transformer arrives.

The painting foreman and his crew have completed tests and have obtained the approval of the architect on the color scheme to be followed. Ten different pastel colors have been chosen and will be distributed throughout the 20 rooms. The exterior of all buildings will be painted ashes of rose, an adobe color. Ceilings of overhanging roofs are being painted a pale green.

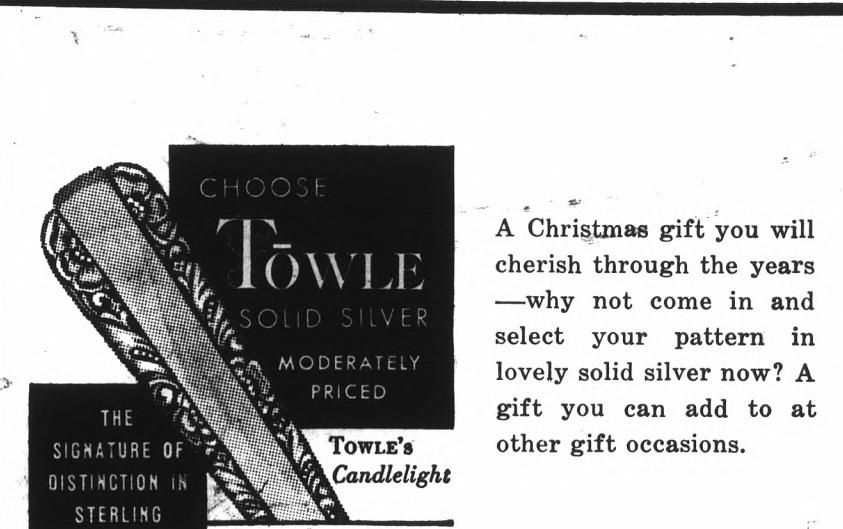

To create a beautiful entrance way to the new college, McCandless said that sidewalks in that area are being laid out in line with the parking area. These walkways are being laid with a rough finish because of the heavy traffic at that point. Sidewalks throughout the rest of the campus will have a smooth finish.

Farther down the campus the administration building has had its final coat of plaster. The cafeteria is ready for its final coat of plaster and the shower and locker rooms are being made ready for this operation.

Glenn Speaks To Club

Guests of Lynn Crawford, superintendent of schools, at a luncheon meeting of the Rotary Club on Tuesday, Dec. 9, were H. O. Russell, director of the college, and Thomas H. Glenn, head of the English Department.

Glenn contributed to the program of the day with a discourse on 'Recent Impressions of France.'

Ex Navy Nurse Marie Pound Heads Health Department

If you have spots before your eyes, ringing in your ears, or just a plain old cut finger, the gal to see is brown haired, brown-eyed Miss Marie Pound, school nurse and health instructor.

Although this is her first year at Santa Ana College, she is well qualified for the job after three and a half years of Navy nursing, where she was a director of the Cadet Nurses' corps.

Schooled In Rochester

Miss Pound hails from Iowa and Minnesota, and is a graduate of St. Mary's hospital in Rochester. After joining the navy nurses corps, she was sent to Corona, Calif., where the first Pearl Harbor casualties were cared for. Following her Navy service, she took a post-graduate course at the University of Minnesota last year, but returned here for a regular teaching assignment.

Has Cooking Hobby

In spite of her extensive nurses' training, Miss Pound admits her secret ambition is to take a trip around the world on a tramp steamer. This corresponds with her favorite hobby, traveling, although cooking and knitting run close seconds. Her immediate plans for the future don't contemplate any traveling at present, however.

"California suits me fine," she smiled.

TOYS FOR TOTS

Dolls, trucks, and all other repairable toys, which may be found in almost any attic, closet, or garage, are suitable for submission to the Christmas toy drive. Bring toys to Building E boiler room by Thursday, Dec. 11, or contact Harold Shefflin.

SPORT-SHOTS

By FRANK ERROTA

ROY BALY, former Don grid guard now at Occidental, was recently selected on the All-Southern California conference grid team. Baly was Homer Hannaford's understudy on Cook's National champions of 1940.

Despite the erratic play of COACH MILES EATON'S Don five against John Muir college last Saturday, the Dons showed promise of developing into a very strong team. The Pasadenans have had six previous outings, a big advantage over the Dons who were making their first start. This observer gives the Eatonmen a good chance of defeating the Mustangs on the rival floor tonight.

DICK CONDE, who performed on Santa Ana college grid and hoop teams last season is now enrolled at Mt. San Antonio college. Conde will be eligible for competition when the second semester begins. He will therefore play against his former mates on the Tustin floor in the season finale on Feb. 27.

WILLIS "BILL" DUFFY, color-speedburner on last season's champion track and field squad, was a first string left-halfback on the past UCLA Freshman football team. Duffy emerged as one of the Bruin's leading ground gainer. Against the California yearlings, he ran 32 yards for one score and sped 92 yards with the second-half kickoff.

Latest additions to the Don hoop contingent are gridders BOB LEONARD and JACK PICKERING. Leonard played aggressive basketball with last season's champion Santa Ana high school five while Pickering, himself an ex-Saint, made the All-Southland jaysee five in 1945.

Experts have made Fullerton's star-studded Hornets the pre-season favorites to dethrone Riverside as Eastern conference cage champions. DAYTON SAYER is tabbed as Fullerton's best all-around cager. Other aces include HERB WILSON, BUD HILL, BOB EMBREY, FRANK MUÑOZ, ERNIE JOHNSON, BILL BRADY, RONNIE TROUT, HERM ANDERSON, FLOYD CHANDLER, and BOB GOODWIN.

Former Dons performing on professional gridirons include FRANK MININI of the Chicago Bears, VIC LINDSKOG for the Philadelphia Eagles, JOE MAR-GUCCI of the Detroit Lions, and EARL "PRUNEY" PARSONS and BOB BRYANT for the San Francisco Forty-Niners. FRED ERDHAUS coached the Los Angeles Bulldogs to a runner-up spot in the Pacific Pro-League.

The new ORANGE COAST COLLEGE at NEWPORT has been admitted to the Eastern conference and will be represented by athletic teams next year. The Orange Coast district will embrace Laguna Beach, Newport Harbor, and Huntington Beach high school districts.

Watch the DONS in the Chaffey Tournament, they have a good chance of upsetting the dope-bucket. They have shown tremendous improvement in each of their three starts.

● DON OF THE YEAR ●

Mustang Cagers
Edge Dons 46-39

Though showing promise the Santa Ana Dons lost their loop opener to the John Muir Mustangs 46-39 Saturday evening on the Tustin courts.

The first half went by with a very close score. It ended with the Mustangs on the top of a 17-18 score. The Dons could never manage to get on the top side of the score.

Muir was playing their seventh game last Saturday whereas the Dons were at bat for the first time this season. Houston Faulkner was the Don's high point man and Meyer lead the Mustangs in scoring. Faulkner scored 18 points and Meyer of the Mustangs scored 15.

Don Casabans
Crush Cougars

Last Tuesday evening the Santa Ana Don cagers pulled down their first win in the second outing this season over the Citrus Junior College Owls 72-33.

Coach Miles Eaton's charges had taken the lead at halftime by doubling the score of the Owls 34-17. The squad saw action from a new member for this season when letterman Jack Pickering kicked in his 10 points.

Ralph Longbotham was the high point man for the Dons, scoring 17 markers.

Eatonmen Challenge Warrior Hoopmen In Seventh Annual Chaffey Tourney

Chaffey college's seventh-annual basketball tournament will commence tomorrow with Cal-Poly of San Dimas opening festivities against San Bernardino at 2:15. Coach Miles Eaton's rapidly improving Santa Ana Dons face El Camino college at 5:45 tomorrow afternoon. The Dons are playing in the second bracket along with such perennial basketball powerhouses as Santa Monica, Modesto and Riverside.

Modesto's Pirates have been established pre-tourney favorites, with Chaffey's host Panthers, Riverside, Santa Monica, and Santa Ana in the dark-horse class. The fast breaking local aggregation may surprise the dope-bucket with their improved play.

Fifteen California schools are entered in the tourney, which will be completed with consolation and championship finals on Saturday, Dec. 20. Taft junior college will draw a first round bye and will face the winner of the East Los Angeles and Mt. San Antonio clash at 4 o'clock on Thursday.

Eaton will probably send his usual combination against the Warriors from El Camino. Ralph Longbotham and Dent Robinson will open at forwards, Houston Faulkner, the leaning tower of Anaheim at the pivot post, and Glynn Boies and Dick Semmens will handle the guard positions.

GUARDS—John O'Connor, Jim Walker, Rod Gould, Bruce Smith, Jim Nelson, Jim Prinslow, John Richards, Bob Thompson.

CENTERS—Mike Henry, Harold Bristow, Norm Christianson, Earl Merrill.

QUARTERBACK—Roy Ward, Chuck Patterson, Bob Hoyt, Don Miller.

HALFBACKS—Jack Pickering, Curt Crawford, Leo Hershman, Francis Halderman, John Cook, Jack Lieberman.

FULLBACKS—Ralph Freitag, Hal Sheffin, Chuck Daniels.
